

SYLLABUS FOR RADIOGRAPHER

(Marks -100)

1. **Physics (10+2 level)**
2. **Biology (10+2 level) - Specially Human**
 - I. Alimentary System
 - II. Urinary tract kidneys, ureters, bladder and, urethra, urinary secretion.
 - III. Nervous system
 - IV. Special sense organs
 - V. Genit-urinary system
 - VI. Anatomy Physiology and pathology (basic)
3. **Hospital Practice and care of the patient**
4. **Equipment of radio diagnostic radiography**
5. **Radio graphic technique**
6. **Knowledge of equipment for diagnostic radiography**
 - (a) High-tension control equipment
 - (b) Apparatus behaviour and additive tube loading, exposure timers
 - (c) Fluoroscopy
 - (d) Special equipment
7. **Must be conversant with the following radiographic photography**
 - (a) Photographic aspects of radiography
 - (b) X-ray materials
8. **Fluorescent screen photography**
9. **Equipment for miniature radiography**
10. **Cystography**
 - (a) Obstetrics and Gynaecology
 - (b) Elementary system & other's like Broncography, Intra Venous Pyelography, Fislulography, Ba. Swallow, Ba. Meal, Angiography etc.
